This morning, Chris Nassetta, our President and Chief Executive Officer, will provide an overview of the current operating environment and the company's outlook. Kevin Jacobs, our Chief

Financial Officer and President, Global Development, will then review our first quarter results and discuss our expectations for the year. Following their remarks, we will be happy to take your questions. With that, I am pleased to turn the call over to Chris.

Chris Nassetta: Thanks, Jill. Good morning, everyone and thanks for joining us today. We are pleased to report strong first quarter results, which continue to demonstrate the power of our business model and the strength of our development story. Both adjusted EBITDA and adjusted EPS meaningfully exceeded the high end of our guidance even with RevPAR growth at the low end of our expected range. We also announced several new partnerships and additions to our brand portfolio, which will enable us to build even more loyalty with customers and help accelerate growth. Turning results for the quarter, system-wide RevPAR increased 2% year-over-year, which was at the low end of our guidance range as renovations, inclement weather and unfavorable holiday shifts weighed on results more than we anticipated.
